Last week wasn't very busy, but I did have to defend my lab
works. It wasn't perfect, but I managed to do it. Also, soon
there will be a series of tests, and this week I decided to
start preparing. It's better to start early, and not study

Sports

This point has slightly sagged this week, but nevertheless, I visited the fitness center. Lately, I have especially liked Pilates, yoga and stretching. Next week I plan to devote more time to sports.

Tv-shows

It's something like a continuation of the old "Univer". But in fact, this new season is far from being as funny, and it feels like the writers have forgotten how to joke. It was better before!
